

Course Name: PNR100

Assignment Title: Group Presentation

SAMPLE

Jehovah's Witness Discussion Question

Based on the presentation about Jehovah's Witness, what is their religious reasoning for refusing a blood transfusion? What are the ethical and moral challenges this poses to health care providers, particularly during surgical or emergencies? How do you ensure safe and culturally competent care as a nurse? List at least 3 alternative treatments or strategies for a Jehovah's Witness patient. How effective are these individual treatments in maintaining professionalism? Finally, what is the role and importance of informed consent in this situation?
